SUMMARY

Senior Data Analyst with 5+ years of experience in data and analytics across subscription, financial and partner platforms. Builds Databricks and Spark pipelines, data quality checks and governed metric definitions so product, marketing and leadership teams get consistent, trusted answers. Experienced in SQL, Python, A/B testing, churn and retention analysis, and Tableau, Looker and Power BI reporting.

SKILLS

Languages: SQL, Python, R
Data Platforms: Databricks, Apache Spark, Hive, Presto
Pipelines and Data Quality: Apache Airflow, ETL/ELT, Event Tracking, Data Validation, Data QA, Automation
Governance and Modeling: Metric Definitions, Semantic Layer, Cohort Analysis, Customer Segmentation, LTV, MAU, ARPU, Churn, Retention
Product and Marketing Analytics: Amplitude, Salesforce Marketing Cloud (SFMC), A/B Testing, Experimentation, Funnel Analysis
BI and Visualization: Tableau, Looker, Power BI

PROFESSIONAL EXPERIENCE

Senior Data Analyst | Arlo Technologies

Milpitas, CA | Dec 2025 – Present

- Build a data intelligence layer on Databricks so product, marketing and leadership can get trusted, repeatable answers to business questions.
- Design and run Databricks pipelines for analytics-ready transformations, with data quality validation built into each stage.
- Define growth, churn and retention metrics once in a governed metrics layer, so every dashboard and query returns the same number.
- Integrate Amplitude behavioral events and SFMC campaign data with subscription data to connect user behavior to subscription and campaign outcomes.
- Support experimentation workflows and the Tableau reporting senior leadership uses for roadmap and investment decisions.
- **Tools:** Databricks, Spark, SQL, Python, Amplitude, SFMC, Tableau

Senior Data Analyst (Contract via Ascendion) | Capital One

Remote, USA | Jan 2025 – Nov 2025

- Drove a 9% lift in feature engagement and upsell conversions by designing, running and evaluating A/B tests with product teams on digital credit products.
- Built Looker dashboards tracking MAU, LTV, ARPU and churn for premium subscription products, used by product, marketing and finance.
- Led behavioral analysis to identify engagement patterns and churn indicators across the digital subscriber base.
- Partnered with data engineering to strengthen event tracking schemas and QA pipelines.
- **Tools:** SQL, Looker, A/B Testing, Event Tracking

Data Analyst | GanaIT
Tampa, FL | Aug 2023 – Dec 2024

- Recovered nearly 15% of at-risk subscribers through drop-off analysis and targeted re-engagement strategies.
- Built SQL cohort models for customer lifetime value and subscription-tier segmentation across banking service products.
- Designed Tableau and Power BI dashboards for user activity, revenue trends and churn, aligned to finance and marketing reporting cycles.
- Ran A/B and pre/post analysis on feature rollouts and pricing changes to guide risk decisions.
- **Tools:** SQL, Tableau, Power BI, Cohort Modeling

Data Analyst | Salesforce
Hyderabad, India | Jun 2020 – Jul 2022

- Built event tracking pipelines with Spark, Hive and Airflow to capture clickstream data across Salesforce's global partner ecosystem.
- Developed reusable SQL models for MAU, feature retention and engagement decay, standardizing KPI definitions across regional teams.
- Created Tableau and Presto dashboards on partner engagement and feature adoption for product and marketing leads.
- Improved experimentation frameworks and funnel QA, making metrics more consistent across global outputs.
- **Tools:** Spark, Hive, Airflow, Presto, Tableau

Data Analyst | National Small Industries Corporation (NSIC)
Hyderabad, India | Jan 2019 – May 2020

- Designed Power BI dashboards tracking borrower retention, repayment behavior and cross-cycle revenue across micro-loan products.
- Developed SQL automation that generates churn-risk alerts and recovery flags for loan officers.
- Cut reporting latency by 40% through automated pipeline integration and modular dashboard components.
- **Tools:** SQL, Power BI, Automation

EDUCATION

Master of Science, Business Analytics and Information Systems | University of South Florida, Tampa, FL | Aug 2022 – Dec 2023

Bachelor of Technology, Electronics and Communication Engineering | Geethanjali College of Engineering and Technology, Hyderabad, India | 2016 – 2020

PROJECTS

- **Bankruptcy Prediction with Machine Learning:** Random Forest model scoring a firm's bankruptcy risk for insurance risk assessment.
- **Airline Route Profitability Analysis (Python):** Ranked round-trip routes by demand, profit and punctuality; ran breakeven analysis on five recommended routes.
- **Effects of Privatization on Space Missions (Tableau):** Analyzed launch failure rates, cost per kilogram and mission volume as private companies entered the industry.
- **Car Price and Mileage by State and Region (R):** Used ANOVA and Tukey HSD tests to compare used-car prices and mileage across U.S. states and regions.

CERTIFICATIONS, PUBLICATIONS AND AWARDS

- ISTQB Certified Tester Foundation Level (CTFL); Data Science (Lloyds Banking Group); Generative AI; Finance Foundations; Excel: Advanced Formulas and Functions
- Publication: "Smart Extension Cord Using Node MCU," PENSEE Journal, Vol. 51, Issue 04 (2021)
- IEEE Xtreme 24-hour programming competition: top 50 teams nationally, top 500 globally; On the Spot Award; Best Team Award
